February 06, 2026: On Updates Since Leaving the House

I am reporting and recording that I received a very solid impression of 'signs' today with an increasingly threatening tone and a couple of very clear messages.

1) In response to your request that I not sue your ass; too fucking bad. Why? Because I do not negotiate with terrorists; I have strong reason to believe that you are doing this to many other people; and I do not believe that you will stop even if I pledged to drop any lawsuit that I intend to bring against your estate.

2) Savannah, Camron, and Annie (I hope that I researched your names correctly), I am receiving a very strong 'echo' and 'feedback loop' of using kidnapping as a threat against my home and family at this time. I am informing you all, publicly, that the same people that threaten me appear to be 'taking credit' for this crime and using it to enhance the threats against me in my own life. I suspect that they are doing the same with other people as well.

3) The remaining signs today (about 55%) were personal extortions signaling all of the ways in which they are going to retaliate against me in my own life based upon their attempts to conjure up some persecution against me.

When I combine all of these signs 1-3, I am receiving the distinct impression that we are all facing a similar set of circumstances where a group of people within the same circle of 'interests' are threatening us to stay quiet, not take actions that we are legally allowed to take to defend ourselves, and to live in constant fear of going anywhere near Donald 'the John' Trump.

Truly, as I have been expressing for a very long time now: Donald Trump is proving himself to be a very unstable criminal.

As I have been saying: Donald Trump is a danger to our community.

But, don't just hear it from me. Hear it from another source that knew him better:

"I told everyone from day one. evil beyond belief, mad, " Epstein **wrote** of Trump in March 2018. "he feels alone. and is nuts !!!"

In February 2017, in an email to former Treasury Secretary Larry Summers, Epstein wrote of Trump, "i have met some very bad people ,, none as bad as trump. not one decent cell in his body.. so yes – dangerous."

> Bannon asks pointedly: "Do you think you're the devil himself?" Epstein shoots back: "No. But I do have a good mirror."
>
> Bannon presses: "It's a serious question. Do you think you're the devil himself?" Taken aback by the line of questioning, Epstein replies: "I don't know. Why would you say that?"

"Can't you see it? Well, yeah . . uhh." (You have only continued to fall further and further into your own pit as you follow me into the depths of my understanding, Donald. It really is in your best interest to move along now.)(Car drives past my home again)(. . . and again and again. . the old man really did lose his mind.)
